

About Us

Honeyguide is a Tanzanian organization founded 15 years ago with the aim of advancing community based and led approaches to conservation. Our reason for being is to make conservation deliver real benefits and be driven by local communities out of their own interest and motivation. We are the only organization in Tanzania that solely focuses all its activities and investments on community-owned and managed Wildlife Management Areas (WMAs). We are committed to making community-led conservation work. We see community-led conservation areas as social enterprises that provide for both people and wildlife.

About the Project

WMA stands for "Wildlife Management Area". It is an area of land that is set aside for the purpose of conservation and management of wildlife and their habitats. We are planning to make films in three different WMAs in 2023 with the goal of changing attitudes and improving transparency in the governance and working towards creating positive change in the management of WMAs. We have designed templates for the three types of films we plan to create.

About the Job:

Job Purpose:
