

About Us

Honeyguide is a Tanzanian organization founded 15 years ago with the aim of advancing community based and led approaches to conservation. Our reason for being is to make conservation deliver real benefits and be driven by local communities out of their own interest and motivation. We are the only organization in Tanzania that solely focuses all its activities and investments on community-owned and managed Wildlife Management Areas (WMAs). We are committed to making community-led conservation work. We see community-led conservation areas as social enterprises that provide for both people and wildlife.

About the Project

About the Job:

It's a service provider to the department for the efficiency of the processes of fundraising and communication. As a service provider, the job is to support the department in achieving its objectives by providing expertise and assistance in areas such as data management, engaging stakeholders, project management, and other related functions.
